POLICE ROUND-UP ALLEGED SUNDAY LAW VIOLATORS

Two Arrests Made Yesterday
on Statement of Witnesses
---One Leaves City.

Cases Called This Afternoon
in Police Court.

PATROLMEN DO GOOD SERVICE

Two arrests for violating the Sabbath by selling liquor without a license were made by the police Sunday. Charles Jones, a former saloon keeper, is under arrest on two counts upon warrants sworn out by Mrs. Price, and Pat Moore before Magistrate C. W. Emery in the absence of Police Judge D. A. Cross. After clever work on the part of Patrolmen Singery and Stewart sufficient evidence was found to arrest Will Taylor, who is alleged to have sold Vina Bell, colored, three bottles of beer for 50 cents. The cases came up in police court this afternoon.

Jones is alleged to have sold beer and liquor in his room, 126 South Fourth street, and after warrants were produced, Patrolman Casper Jones placed him under arrest. He failed to make bond and spent the night in the city lockup. Jones formerly ran a saloon here, but failed and says he has been in straits. He has a family in Fulton and made promises to the police that if they would let him off he would leave town and stay. He had \$27.50 and left \$25 with the city, upon which one case was settled and the others filed away.

Will Taylor was arrested after proof had been established by two negroes that he had sold beer. Patrolmen Singery and Stewart spied Amos Gentry, colored, coming from the alley near the city scales lot with several bottles of beer. He was questioned and told the officers he obtained it from Vina Bell, colored, living at 218 Washington street. The woman refused to give the name of the one who sold her the beer, but said she bought it of Will Taylor at Isaman's restaurant, Second and Washington streets.

Alleged Lumber Thief.
Patrolman Henry Singery, who is holding records for important arrests, made another good catch this morning when he took into custody Nelson Perkins, colored, charged with grand larceny and wanted by the Morgan Lumber company for the alleged theft of logs.

Perkins is charged with stealing several hundred dollars worth of logs from the mouth of Sandy, 75 miles up the Tennessee river. The logs belonged to the Morgan Lumber company and R. T. Dortch, who is connected with the firm, was sent to Paducah, suspecting Nelson of having headed for this port. His wait was rewarded today when Perkins was caught. The negro, it is alleged, brought the logs here, leaving them in Mechanicsburg. He claims he raised them from the bottom of the river, but did not deny that they were the property of the lumber company and each log was stamped. His trial will come up in police court this afternoon.

HAZELIP DENIES STORY ABOUT HIS APPOINTMENTS

By pretending to announce authoritatively, whom T. N. Hazelip will appoint county probation officer when he is elected county judge, the News-Democrat calls attention to the present imposition on the taxpayers of a uniformed officer at \$100 a month, who cleans up some \$40 clear every time he takes a child to the reform school at Lexington.

Mr. Hazelip said today, when asked whether the statement is true, "It is not." I have not thought about appointments yet, and have spoken to no one about the position of probation officers. In fact, the law says the county judge "may" appoint one. It is not obligatory, and I am seriously thinking of abolishing the office."

In its mother's arms in Dr. Otey's office at Melber, the five-months-old child of Mr. and Mrs. W. S. Simmons, of that section, died. The infant had a chill and the parents, thinking it had malaria, took it to the doctor. It is presumed the child died of congestion.

Rube Wilkerson, who, it is alleged, stole large quantities of sugar from P. E. Stutz a few months ago and who settled the matter, was arrested on a serious offense Saturday night at Eleventh street and Broadway by Patrolmen Clark and Bryan. E. M. Holmes, an Illinois Central railroad fireman, accuses Wilkerson of stealing his watch. Patrolmen say they learned that Wilkerson attempted to sell the time piece at Ike Cohen's pawnshop, but failing to make the transaction he secured \$13.50 for it at J. L. Wolf's jewelry store. Wilkerson is said to have borrowed the watch to pass inspection with.

**Rebating, Watering Stock,
Combining With Competitors
Some of Charges—
Demands More Law.**

Des Moines, Ia., Sept. 20.—In a straight-from-the-shoulder speech from the steps of the state capitol today President Taft took up the "big stick," laid down by his predecessor, and brought it down on the railroads. Unless all signs fail he has reopened the war between transportation companies and the administration. He demands more law from congress and more power for the inter-state commission. In the same breath he accuses railroads of maintaining discriminatory rates, overcapitalizing lines, dealing in competitors' securities, stifling opposition, raising rates and oppressing of the shippers. He believes labor unions should not be excepted from the anti-trust law. He says the best way to provide for that is to insert a phrase "conspiracies seeking to suppress competition or monopolize trade." He breakfasted with Senator Cummins.

First Outbreak Occurs There
Sunday When Omaha Interurban is Derailed.

President Taft Talks of Cutting Out the City.

NO CARS WHILE HE IS THERE.

Omaha, Neb., Sept. 20.—President Taft seriously contemplated omitting Omaha from his itinerary after he heard of the street car strike, and only after he was assured no attempt to run cars would be made while he was in the city, he decided to come here. Mayor Dahlman and Taft's secretary, Mr. Carpenter, exchanged several telegrams before the decision. There will be no cars from 4 o'clock until Taft leaves the city. When he arrives at 4:30 he will be taken around in an automobile. Then he will enjoy a big dinner, 150 prominent Omahans attending.

Trouble at Council Bluffs.

The first show of violence in the street car strike came at Council Bluffs Sunday afternoon when a car on the interurban line was derailed and the windows smashed. Fifty-four men were brought to the city from Chicago this morning and it is understood 400 more are expected to arrive tomorrow.

Strikers Parade.

This afternoon 350 strikers paraded the principal streets of the city. It was claimed by the union leaders that 200 other men are out but failed to show up at headquarters in time to march in the parade.

At the time the strikers were parading a crowd gathered and for an hour every car which passed had to run the gauntlet of blows and jeers. Trolleys were pulled off and the ropes cut so that the conductors were compelled to climb to the top of the cars to replace the trolleys.

Trolley Wire Broke.

One exciting moment was when a loose trolley pole caught the trolley wire and broke it, allowing the ends carrying a heavy current to drop. Fortunately no one was touched by the live wire.

Three patrol wagons brought policemen to the scene and they succeeded in parting the crowd so as to permit the passage of cars without further molestation.

Of the fifty-four men brought from Chicago, a few were put to work, but no great effort was made to get the service up to normal. It is understood that tomorrow the company will try to run the cars on schedule. Cots were placed in the barns today for the use of the imported men and arrangements were made for feeding them in the barns.

Cars Taken Off.

After the rioting in Council Bluffs all the cars in that city were taken off and here the service was discontinued at 7 o'clock.
